

3 Courses

Getting Started with Go
Functions, Methods, and
Interfaces in Go
Concurrency in Go

Dec 9, 2019

Julie Lollis

has successfully completed the online, non-credit Specialization

Programming with Google Go

This specialization is intended for individuals who wish to improve their programming skills and harness the reliability and efficiency of Google's programming language - Golang. Because it is an introductory program, there are no specific prerequisites other than an interest in computer software. Some previous coding experience required.

Ian Harris
Professor
Department of
Computer Science

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
